#### **1.1.1.0 Registration -**

New players to VGHL3 must register for the site and create a gamer profile. Once you have done this you will select YES in the 3s League section of your GAMER PROFILE you will then press save and you will be registered for the upcoming season of the VGHL3

Existing players will go to their GAMER PROFILE and select YES on 3s League.

1.1.1 Regular season and playoff games must be played 4 vs. 4. It is up to Team Management to make sure they have a full line-up at game time.

1.1.2 If a player quits on his/her team during a game, the player will be eligible for suspension at the discretion of the VGHL3. Players caught quitting VGHL3 games to join games in a different league will face harsh suspensions and possible blacklisting.

1.1.3 VGHL3 game times are listed below (Eastern Standard Time - EST). Teams may have up to 9 scheduled games in a week.

- I. **Days : Tuesday / Friday / Saturday**
- II. **Times : 8:45 , 9:25 , 10:05 PM EST.**
- III. **Teams in Season 1 of the VGHL3 will consist of regular NHL teams and jerseys.**
- IV. **The VGHL3 for season 1 will start with 2 conferences and 4 divisions.**
- V. **Western Conference and Eastern Conference.**

1.1.4 If you do not have a full roster at game time there will be a 10 minute window to start the game. If a team is unable to play a forfeit will be issued. NHL search window ends at :55:59:, 35:59:, 15:59. To claim a forfeit for failure to search within 10 minutes, a team must provide a pair of time stamped PSN screenshots showing a game search occurring within the open window and at the end of the window. Pictures are not required if the losing team claims a forfeit loss on the website using the Manager Control Panel.

1.1.5 Teams discussing the possibility of FF must do so following the VGHL3 game night rules. If a game is to be forfeited, it is to be posted in the appropriate area and no game shall be played that evening. If these rules are ignored, and a game is played, the game is official and no other decision can be made.

1.1.6 If any team uses an illegal roster, the result will be a 1-0 regulation forfeit win for the opponent.

**1.1.7 The VGHL3 operates Tuesday through Saturday. Wednesday being the exception.**

1.1.8 Teams must use the pin number generated by the website to search for a game using a club challenge. If the game code triggers EA censorship simply remove one of the digits causing the issue and communicate with your opponents management on the new code.

1.1.9 The home team on the site selects home, and the away team selects away. The home team inputs the server selection of their choosing. The away team must select 'ANY' for server selection. If the away team refuses to follow these settings, and it is preventing the game from starting, they may be reported to the VGHL3 resulting in a forfeit loss. The VGHL3 requires time-stamped PSN screenshots showing correct settings and the match up screen.8

1.1.10 Only servers located in North America are eligible to be selected by the home team. During regular season play the home team will select server with the away team selecting any.

1.1.10.5 Playoff server will be put to any by both teams. If a team backs out after matching due to not getting the server they want they will be issued a FF loss.

1.1.11 If a team has an issue with a game which has already started and requires staff assistance for a potential forfeit win, the team must stop playing the game and send their evidence to their league commissioner for review. Staff will not reverse the results of any game if teams continue to play the game out unless invalid rosters were used. If a team stops a game that has started because they feel that the other team has broken a rule, staff will review their evidence and decide which team shall receive the ff win. Partial games will not be restarted or rescheduled once they have been stopped for staff review.

1.1.12 Any game that is not completed on the originally scheduled night, due to EA/PSN issues, and is not settled via forfeit, will be rescheduled to a new time, and starting at a 0-0 game. Stats, lineups, etc. will not be carried forward.

1.1.13 A VGHL3 game officially begins with puck drop of the opening faceoff. At this time lineups are locked in and all applicable rules including disconnects, ECU's etc must be followed.

1.1.14 All VGHL3 league teams must follow the following jersey colour scheme: Home Team = Dark Colours Away Team = Light Colours Games cannot be stopped, ended or restarted if Jersey Colours have been incorrectly applied and the game has already begun. 1.2 Disconnects (DC)

1.2.1 If any player disconnects before the 2 minute mark of the start of the game or of the restarted game, the game is to be paused at the earliest whistle and is to be restarted. All play up to the whistle, including any cpu stats will still carry over into the restarted game. There will be no penalty shot for this DC restart, and it will not count toward a player's limit of 2 disconnects.

1.2.2 If a single skater disconnects after the 2 minute mark of the first period, or of the restarted game, the game must be played until the next period. During the intermission the teams must take stats and restart. Upon restarting, play CAN NOT RESUME until the disconnected player takes a DC penalty and awards the opposing team a penalty shot. The 1st period becomes the first period to be made up.

1.2.3 If the goalie or two players from the same team have disconnected, the game is to be paused at the next available whistle. Each team is responsible for recording their stats and the time of the restart, then the game is to be restarted. All play up to the whistle will still be counted. If a goalie has disconnected then the team may choose who is to take the DC penalty. If players on both teams are disconnected then the penalties are voided and no team has to take a DC penalty. If two players from the same team have disconnected then the team that had the DC's may choose between the two for taking the penalty upon restart. If two players DC only one DC penalty has to be taken. All penalties that need to be taken will result in a penalty shot for the awarded team.

1.2.4 If a player disconnects during an intermission (between periods), teams MUST continue into the next period and follow the above guidelines. Teams NEVER back-out and restart during intermission.

1.2.5 Any stats accumulated by computer players will carry over into the restart.

1.2.6 Teams have up to 10 minutes to restart the game after a DC. If a team cannot produce the same lineup, NHL teams must use an ECU. If an ECU is used, the ECU'd player must follow all ECU guidelines and the ECU will count as an official ECU. Any player replacing a DC'd player must replace that player in the exact same position which that player was playing before they DC'd.

1.2.7 If a team is unable to restart the game after 10 minutes, the result will be a 1-0 regulation forfeit loss. If the DC occurred in OT and the team is unable to restart the game after 10 minutes then the result will be a 1-0 overtime forfeit loss.

1.2.8 Any player that disconnects twice during one game is not allowed to play in the next restart. Teams must replace this player following guidelines set in Rule 1.2.6. The ECU used must follow all ECU guidelines and the ECU will count as an official ECU.

1.2.9 The team that has the player/player's DC must pause the game and backout. If they do not and continue to play passed the above guidelines the game will result in a forfeit loss.

1.2.10 Each team is responsible for their own stats on restarted games.

1.2.11 In the event of a DC, all players must continue with the player build selected in the original attempt. The opposing team is responsible to submit evidence to the VGHL3DC if this is violated. Infractions could result in an invalid roster and suspensions for those involved.

1.2.12 Ragging - Any team found to be "ragging" the puck will result in a 100k fine towards the offending teams salary cap and a penalty shot awarded to the opposing team to start their next game. This will not be tolerated in the VGHL3 and subsequent offences will result in double the first infraction.

### **1.3 Game Freezes and Game Loops**

1.3.1 If a game freeze or game loop occurs during a game, and the game is able to continue, the game must go on with whatever time and score that the score clock is showing after the freeze or loop. Any goals lost as a result of a freeze or loop will not count towards the official game score. If a game freezes before the game ends and stats are not able to be retrieved, the game must be restarted from the beginning of the game with a 0-0 score.

## **2.2 Infraction**

2.2.1 All infractions must be posted in the infractions section in the Manager Control Panel within 24 hours of game-time. All evidence for the complaint must be submitted to the commissioners within 24hrs of game time or the case will be invalid. Posts may be made by either team.

2.3.7 No Player or Manager is allowed to communicate with other team's players regarding league matters (availability, scheduling, transactions, etc.) other than to organize a game. The only exception is to offer management opportunities to expiring contracts in the off-season. This is considered tampering and the team/player accused will be penalized accordingly by the VGHL3.

The definition of an unresponsive player is as follows: a player who fails to reply to a message sent from the player's management team in two league days (League Days: Tues, Thurs, Fri, Sat). Falsely reporting inactive players will result in team fines from the VGHL3. The PA will not assist in any inactive claims if the lineup tool has not been used to list weekly lineups. If a player fails to submit lineup requests for consecutive weeks, the player will be automatically blacklisted by the lineup tool. All evidence for inactive players must be added under the reason section of the report. Evidence from non-official platforms may be dismissed by the PA including, but not limited to, 3rd party messaging apps or private discord servers.

4.2.2 All players must meet the minimum games per week requirement. If a player does not meet the minimum games played per week requirement, the team will be fined 100k per game at the NHL level. Fines will be doubled for each consecutive week of inactivity and will continue to be doubled as such. NHL managers who do not report inactive players to the VGHL3 will be subject to fines. Team Management does not have to play 3 games per week at the NHL level. Please note that send downs and call ups must still follow this rule.

4.2.3 Minimum Game Requirements for Players with weeks having:

i. 6 or more games: Players must play a minimum of 3 games.

These transactions must still fit within our office hour guidelines. Any time sensitive transactions which expire after office hours and have not yet been approved by the staff may not be used. If the staff denies the transaction after the team has moved forward, their games played will be forfeited. Management is expected to let the Transaction Team know of other moves they are processing. An example would be letting staff know you have an IR placement waiting on approval in your post for a call-up. Waiver claims and trades may not be used until they have been approved by the staff.

4.2.10 Trades must be approved by the VGHL3 Staff before a team is allowed to move forward with the transaction. Once both parties have accepted a trade, the trade may not be cancelled unless both parties post their agreement to have the trade voided. A VGHL3 owner may veto a trade made by their VGHL3 captain, even if both parties have agreed to the trade, without needing another manager to agree to void the trade, as long as the trade has not yet been approved by the VGHL3. Once the VGHL3 has approved a trade, the trade is final.
